

## decision

every minute, every day, for the rest of our live  
there's one single thing ensuring our drive  
it's called a decision

and it's that single thing some of us fear  
they think they make the wrong one and the end comes near  
but there's no wrong decision  
when it's your decision

when it's your decision  
no need for superstition  
when you're on a mission  
it's you, who had the vision  
so it's yours

every wise man knows, there's no such thing  
as a wrong decision 'course you will learn a thing  
if it's your decision

one or two funny ones you might make  
but it's better you do that  
instead of letting fate do your decision

all my decisions have brought me here today  
even though I could have made some, some better way  
I made some brilliant ones like letting go  
of analyzing, perfectionism and co  
I made some silly ones  
but I learned from them  
to do a better one next time course then  
It'll be my decision
