

## jellyfish

oh my dear, don't you know  
you won't go here, well, hell no  
oh my dear, you better start  
stopping right here and don't get smart on me  
oh my dear, now, where is your code  
didn't you take a lady's oath

karma's gonna get you  
and it will gladly take  
you to the bottom of a muddy lake  
and in that lake  
you will be again  
at the bottom of the mighty chain  
as a jellyfish  
now, who's to blame

so, oh my dear, you can trust me  
I know that, what must be, must be  
oh my dear, though it's love you wish  
no one ever loves a jellyfish
