

scream

I want it big, I want it now
I want you to wonder how
I got it big and got it now
so you wanna know

how I fulfill my dreams
and I make it so it seems
like an easy thing
to do my thing

I fulfill my dreams
if I make it so it seems
like an easy thing
to do my thing

I want a sea view and a pony
I want a grand piano
I want my house to be homy
and for you to know

how you fulfill your dreams
and you make it so it seems
like an easy thing
to do your thing

you fulfill your dreams
if you make it so it seems
like an easy thing
to do your thing

but everybody's got a different method
and everybody's got a different hazard
everybody's got a different dream
and once in a while you just wanna scream

you gotta find your own method
you gotta overcome your own hazard
and you gotta find yourself a dream
let it out and scream

there's not more to that
there's no white rabbit in a hat
go down the rabbit hole
and you will know
