

## lady of the house

the lady of the house has a big day coming up  
we all wanna help her but she's on her own with that

the lady of the house is a tough growing-up  
but in herself she kept an innocent heart

she is strong that one  
now don't you do her wrong  
you better don't mess with her  
'course she knows how to do it right  
and this time she would like to fight

but just by watching her bright eyes fade  
to gloom and worry of the darkest shade  
you think they've done it yet again  
they've torn another one apart  
but you keep watching her for a while  
you see the lady of the house is back to fight

the lady of the house is not just smart  
she can pull off walking around messed up looking like art

the lady of the house can conquer your heart  
but only if she decides that you're worth it

she is strong that one  
now don't you do her wrong  
you better don't mess with her  
'course she knows how to do it right  
and this time she would like to fight

but just by watching her bright eyes fade

the lady of the house could do anything  
so she decides to stay out of that ring

the lady of the house says this time around  
her moment has come to play with those dirty hounds

she is strong that one  
now don't you do her wrong  
you better don't mess with her  
'course she knows how to do it right  
and this time she would like to fight

but just by watching her bright eyes fade
