

better than that

you asked me to write a song
'bout you and me getting it on
you say, why don't I describe
you and me on a wild ride

but you know me better than that
you know I'd never write a song sleazy as that
no,no,no you know me better than that
you know I'd never write a song like that

'course I could write about our hot nights
and how we don't even get time to turn down the lights
off course I could write about your sweet bum
and how you use it like you use your drums

but you know me better that that...

me, I'm just glad that it's a fact
that you and me know how to play in bed
I don't need to tell another girl
how you can make my toes curl

you know me better than that...
